

Monitoring Comprehension

Comprehension is making sure I understand.

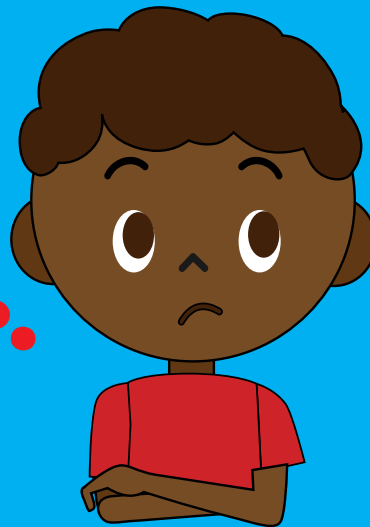

What is monitoring?

Checking to make sure everything **looks** right, **sounds** right and **makes sense**.

I monitor comprehension...
Every time I read.

When I monitor, I ask myself these questions...

- Does that look right? 
- Does that sound right? 
- Does that make sense? 

If the answers are all yes, all is well!

If the answer is no, I need to use a fix up strategy.
