

I read for specific information on a website...

Any time I am using a computer or tablet.

Reading for specific information on a website is important because...

- My books may not have all the information I need.
- Scanning the website will save me time.

Reading for Specific Information on a Website

When I read for specific information on a website, I...

- **Decide** what information I need.
- **Think** of key words.
- **Scan** the entire page if I trust this website.
- **Ignore** extra information.
- **Record** the information on my inquiry chart.
