

DATA LOG: Team # _____

What question are we trying to answer?

What type of data (information) will we collect and how will we collect it (observation, measurement)?

What tools will we need (e.g., hand lenses, measuring tape, etc.)?

What is our variable?

Bottle 1: Control (variable does not change):

Date	Observation or Measurement	Data Collected

Bottle 2: Variable changes:

Date	Observation or Measurement	Data Collected

Our prediction about what will happen:
