

## Plant Structures

Team: \_\_\_\_\_

**Directions:**

- Looking at the plant image being projected, write the names of the **four main plant parts** in the first column in the chart below.
- Discuss with your team **what you already know** about this part of the plant. Add this information to the second column in the chart.
- You will complete the “Functions” column of this chart after the next activity.

Name of plant part or structure	What we already know	Functions (What does it do?)
